Dear Parent/Guardian:

At times during the school year, you may find it necessary for your child to have medication administered during the school day. When this is the case, the procedures listed below are to be followed in order to assure the health and safety of your child:

1. Written, signed permission by the doctor must be given to the school nurse, please use form on reverse side.
2. Written, signed permission by the parent/guardian must be given to the school nurse, please use form on reverse side.
3. Medication is to be brought to the school nurse by the parent/guardian in the **original, current prescription** container.
4. Whenever possible, the morning dose and the late afternoon dose of medication should be given at home.

NOTE: According to state law, only a registered School Nurse may dispense medication to a student in school, with **written, signed** permission from the child's physician. **No over-the-counter medications are to be brought to school by the student.**

If you have any questions or require further assistance, please feel free to contact the school nurse. Thank you for your cooperation in this important matter.

Sincerely,

Larry Abramowitz
Supervisor of Services for Children
